

**Just
Arrived
from
JAPAN.**

We have just opened out a very large importation of Japanese Rugs in Oriental designs and colorings in the following sizes:

14.0 x 9.3
22.0 x 9.5
32.0 x 6.6
6.0 x 8.5
8.0 x 10.0
10.0 x 12.0

These rugs are very beautiful. Many of them are made of silk and are very expensive. They are also very durable and will last for many years.

SAYS:

THOROLD, October 28, '90,

C. B. SCANTLEBURY, Esq., Belleville.

DEAR SIR,—When the books of samples arrived I had not time to examine them as thoroughly as I wished on account of a severe sickness in my family.

Judging from the samples I must pronounce your Wall papers very superior, both in designs and colors, as well as the quality of the paper. The prices are VERY MUCH LOWER than those of other firms.

ed. I have been making good use of the books of samples in showing friends and acquaintances what they can do by sending to your address in Louisville. I should like to use the books a week longer if you will let them then immediately.

Yours truly,
L. G. L.

P.S.—We refrain from publishing the writer's name, but if there is anyone curious enough to wonder if the letter is a "fake" or not we will be pleased to show them the letter with full signature, also several hundred other letters on your encouraging to us. They are all on exhibition at our office,

Saint Michael the Weigher.
 (Sunday, the 29th. September, was St. Michael's day—"Mi-ca-el," who is like unto God.)

Stood the tall Archangel weighing
 All man's doings, dressing, and living,
 All the failures and the pains,
 All the triumph and the gains,
 In the unmingled years.

Full of hopes, more full of tears,
 Since old Adam's hopeless eyes
 Looked east, sought for the East,
 And, instead, the flame-blade saw
 Of terrible Law.

Waking I behold him there
 With his fire-gold flaring hair,
 In his blazing armor clad,
 In his kingly robes arrayed.

Jackets.

We have a number of Ladies' and Misses' Jackets to clear out from \$2 to \$5 each, original price, \$5 to \$16. These Jackets will be placed in two different lots:

| | |
|------------------------|--------|
| Choice lot, No. 1, for | \$3.98 |
| Second lot, No. 2, for | \$2.98 |

In the other scale he threw
 Many a soulless creature few;
 Many a cat, harems and
 Many a bird, and many a friend.
 Buschen cups of man whose greed
 Had made the poor man's head
 Disillusioned and despair.
 Of course salutes with grizzled hairs.
 Broken hearts that broke for man,
 Broken hearts that broke for man.
 Scoring then the beam divine
 Swiftly on the path of man
 While earth's splendor and renown
 Mounded light as thistles.

The Little Empty Arm Chair

Notably sits in the little empty arm chair. It stands in the corner of the room, and it is a white chair with a high back and a low seat. It is a simple, elegant chair, and it is the only one of its kind in the room. The room is a small, square room with a high ceiling and a large window. The window looks out onto a garden with a path and a fountain. The room is empty except for the chair and a small table with a lamp. The chair is the only one of its kind in the room, and it is the only one of its kind in the world.

HER LAST PARADISE.

The room had been very still for a long while. Only the very faintest of sounds came from the street outside. The door was closed, and the key was in the lock. The room was empty except for the chair and a small table with a lamp. The chair was the only one of its kind in the room, and it was the only one of its kind in the world. The room was a small, square room with a high ceiling and a large window. The window looked out onto a garden with a path and a fountain. The room was empty except for the chair and a small table with a lamp. The chair was the only one of its kind in the room, and it was the only one of its kind in the world.

AGRICULTURE UNDER THE N. P.

While Mr. Laurier has been denouncing the value of farming land has fallen 25 per cent in value under the N. P. The returns published by the Ontario Government show that, since 1880, there has been a decline in the assessed value of farm property from \$102,097,445 to \$14,629,101. The decline considers things as accurate and as indicating a backwardness in agriculture, threatening the prosperity of the Province.

While the farm values of Ontario have remained practically stationary during the past six years and the rural population shows a decline, a comparison of the facts here with what has taken place in other countries reveals a picture of our own province. In England it is well known that the depression of the agricultural interest has reached the importance of a national calamity, and the minds of British statesmen are being taxed with the problem of how agriculture is to be rescued from the ruin that has overtaken it.

In the United States, where the farmer enjoys a market of sixty-five millions of people with every variety of climate and every extent of resources, the same things are not very much better. And there that the independent yeomanry of the country are rapidly sinking into the position of tenant farmers. In the New England States the current statistics show 24,117 in the past decade while the number of tenants increased 7,348. The tenant farmers of Massachusetts nearly doubled in the same period. In the Middle States there was an increase of 24,075 in the tenants. In the northwestern states a similar tendency has shown itself. In Ohio the tenant farmers increased 10,563 and in Kansas 39,463.

Of course the meaning of all this is that those farmers have not been able to pay their way, and that they have lost their property and have become employees of their creditors. The decline in farm values has been going on since the States of Idaho, Michigan, for example, and we find that in ten years the value of land in that State has decreased \$69,200,000, whereas the value of land in Ontario decreased only \$30,000,000. In Ontario, however, the farmers were making money, for they sold \$100,000,000 in their total sales, mostly to be seen in better buildings, improved stock and an increase of agricultural implements; but the farmers of Michigan during the same period have suffered a loss of \$61,432,964.

In New York, the returns to questions sent out by the Association for improving the condition of the poor, shows that farming land has depreciated in value by 50 per cent. within 25 years.

Agriculture in all parts of the world is suffering from the competition caused by the vast quantities of new land brought under production and cultivation, but Ontario has held its own in comparison with its neighbors extremely well.

"The Common People"

At Abraham Lincoln called the poor, do not care to argue about their ailments. What they want is a medicine that will relieve them. The simple, honest statement "I know that Hood's Sarsaparilla cures me," is the best argument in favor of this medicine. It is a good thing for many thousands to-day.

Hood's Pills are the best after-dinner pills, and digestion, cure headache, etc.

A Lame and Impotent Conclusion

Mr. Beaumont, of La Patrie, is reported to have said because Mr. Laurier refused to take the oath of office, he was a lame and impotent conclusion. The Liberal party of Quebec is dominated by him, men with "various appetites," who make politics a profession and get into the inner circles of Government. According to La Patrie the radicals think they shall the forces of the "rotten things" from getting at the soup. To satisfy their greed on the day of victory. "If, however, Laurier refused to take the oath of office, the master of the house is free from all organic disease and enjoys good health. Mr. Laurier will help the master of the house to secure possession of Canada, but hopes that the man of good health will prevent the "rotten things" from getting at the soup. To vote and vote for the rotten things will be a queer way to "keep the rot from coming in." Mail and Empire.

THE LIMESTONE CITY.

Kingston, Ont., Nov. 7.—(Special.)—The remains of a man and a woman, who were killed by a train, were found in the city of Kingston. The man was identified as John J. O'Connell, a native of Ireland, and the woman as Mary O'Connell, his wife. The bodies were found in a field near the city, and the cause of the accident is being investigated.

RUN DOWN BY A TRAIN.

PETER MERRILL, OF DEERONTO,
KILLED NEAR H.B. LAST NIGHT.He was walking on the track, stepped
out at the way of one train in front
of another. He died shortly after
being struck. The train halted but
did not stop.A terrible accident occurred about 5:30
last evening a short distance from the
Belleville overland bridge, on the Grand
Trunk track. A man named Peter Merrill,
from Deeronto, was struck by a freight
train and received injuries from which he
died soon after.The particulars of the sad occurrence are
as follows: Peter Merrill, a man between
fifty-five and sixty years of age, who has
worked for some time for the Railway
Co. at Deeronto, came to the city on
Tuesday afternoon. The St. James
to visit his sister, Mrs. Yarey, having
a few miles west of the city in Sidney. He
started to walk into the city last evening
and was coming down the track just west
of the city limits, when he met the
train which leaves here at 5:00 p.m. He
stepped out of the way of the train going
west on the track, and the train, which
was blowing from the east, did not
prevent him from hearing the approach
of a freight train from the west. He
had only stepped out of the way of the
passenger train when the east-bound train
struck him. The engine came down on
him and he was killed and dragged for
some distance along the track. The
engineer of the freight, as well as he who
was on the train, made every endeavor
to stop the train, but owing to the
weight of the freight, and the down grade
at this point, his efforts were of no avail.As soon as the train stopped, the
crowd went back and picked up the
unfortunate man. It was at once apparent
to them that he was fatally injured, and
they did all they could to make him
comfortable. He was brought to the city
and placed in a hospital, where he lay
until he died. The funeral was held
yesterday afternoon at 2 o'clock, and
the body was buried in the cemetery.

Nervous Prostration

It is now a well established fact in
medical science that nervousness is due
to impure blood. Therefore the true
way to cure nervousness is by purify-
ing and enriching the blood. This
great blood purifier is Hood's Sarsa-
parilla. Read this letter.For the last two years I have been a
great sufferer with nervous prostration
and palpitation of the heart. I was weak
in my limbs and had shattered nerve-
sensations. At last my physician advised me
to take Hood's Sarsaparilla, which I did
and I am happy to say that I am now
strong and well. I can still enjoy Hood's
Sarsaparilla and would not be without it.
I recommend it to all who are suffering
with nervous prostration and palpitation
of the heart. Mrs. J. A. Clark, of Sidney,
Toronto, Ontario. Use Hood's Sarsa-
parilla.

Hood's Sarsaparilla

Is the Only

True Blood Purifier

Tricarbolic in the public eye today. It
is not what we say but what Hood's Sarsa-
parilla does for you. It is the only
blood purifier that can be taken with-
out harm to the system.

Hood's Pills

are sold everywhere.

The groom was Mr. J. M. Finkle, of
Thurford, Ontario. The wedding was
celebrated in the St. James church, and
the bride was accompanied by her father,
the officiating was performed by the
clergyman who was assisted by the
congregation and many people from the
city and the suburbs gathered as early
as 6:30. What was the surprise of
everyone was the very handsome and
exquisite wedding cake, which was
brought in by the bride's father, and
which was the first of the kind to be
seen in the city.The bride was Miss Alice Clark, daughter
of Mr. and Mrs. J. A. Clark, of Sidney.

ECONOMY IN FUEL.

The Europa Fuel Economy is a scientific preparation which augments the intensity of coal and wood heat in the proportion of 2 to 1.

The Europa Fuel Economy prevents the smoke, the cinders and the formation of soot, which may pollute the air, and it is a most valuable asset in any apartment or building.

The Europa Fuel Economy produces a heat more soft and more concentrated; when a normal heat is wanted, the ventilation may be kept at a normal level, and consequently more healthily and comfortably.

A CALL EXTENDED.

An Important Meeting of Bridge St. Methodist Church, Nov. 16, 1896. The Rev. E. N. Baker, Minister, invited to be present. Pastor-Steward, Eldered. The Rev. E. N. Baker, Minister, invited to be present.

There was a numerous attendance at the meeting of the Quarterly Alliance of the Bridge St. Methodist Church, held last night, for which a special "anniversary" had been called to its forty-third anniversary to attend. The Rev. E. N. Baker, Minister, presided.

The members of the congregation have been desirous to retain Mr. Baker, for the term of a year, in the pastorate of the church. The Rev. E. N. Baker, Minister, presided. The Rev. E. N. Baker, Minister, presided.

Figure turned at 10 and one-half yards for a pair of men's trousers, finishing, button and buttonholes, cutting, making, etc. Can you get them for \$1.25 and \$1.50? No. The Oak Hall have splendid pairs, good wearers, at these prices. We charge you nothing for selling them.

The Rev. Chas. E. McIntyre, who is in all probability will follow the Rev. E. N. Baker in the pastorate of Bridge St. Methodist Church, is a native of Kingston, having been born there about 1840. He is the son of a "native" family, his brothers, Chas. E. McIntyre, C. C. and John McIntyre, being well known in the community.

Handache and Constipation. The use of Dr. Hodder's pills has proved their great value as a remedy for headache and constipation. Persons suffering from these disorders of the liver or bowels will find relief by using Hodder's pills. Sold at 25c a box by L. W. Yeomans & Co.

The Opera House. John Griffith, whose superb acting has met with such a flattering reception in all the large cities this side the Atlantic, will make his first appearance here Wednesday evening. Additional interest is lent to this engagement because the star happens to be a Canadian actor, and his well known presence in the theatre will be a great attraction.

A VAST DIFFERENCE. How to Distinguish the Genuine From the Imitations at a Glance. PAINE'S CELERY COMPOUND "MAKES PEOPLE WELL."

Other Preparations Misdread and Deceive. There is truly a wonderful difference when the pure, solid, and healthy gold coin is compared with the miserable imitation. The genuine gold coin has music and crispness in its ring; the base coin sounds dead and harsh in its ring.

The Weather. Fire last night was the heaviest. Last night's lowest was 18° at 8 a.m.; 35° at noon.

Church Directory. "The People." Make friends with Manning. With the Rev. E. N. Baker, M. A. B. D., minister, to officiate at 11 a.m. and 7 p.m. in St. Andrew's Church.

TRAM WRECKING

Fiendish Work by a Gang of Boys Near Rome, N.Y.

SHOEMAKER WAS TRAPPED.

Rome, N.Y., Nov. 19.—The deliberate wrecking of the fast mail train No. 4, which was bound for New York City, was accomplished at 10 o'clock this morning. The train was wrecked on the tracks near Rome, N.Y., and the locomotive and several passenger cars were derailed. The train was carrying a large number of passengers, and the wreck caused considerable delay.

Daily Intelligence

THANKSGIVING.

The people of Canada will tomorrow suspend their labors and return thanks to Divine Providence for the bounties of the year. Although 1896 has not been, owing to long and severe drought, one of the most remarkably fruitful years in Ontario, yet the official statistics, which have just been published, show that, in field crops, the yield has been above the average in nine articles, up to the average in one article, slightly below the average in three articles, and considerably below the average in but one article, namely hay. Moreover the value of live stock has steadily increased, trade has greatly improved beyond that of last year, and lastly we have had more business activity than for several years previous. Let us all give thanks, then, for the goodness of Providence.

A PERTINENT QUESTION.
If this Liberal candidate, whoever he may be, wins further information, then you have these three positions to consider: 1. If you want the Government sustained in its determination to let you vote for Mr. Wilfrid Laurier, you will vote for the Liberal candidate. 2. If you are opposed to the re-establishment of Separate Schools, you will vote for Mr. Smith.

So said Mr. Dalton McCarthy in the speech with which he opened the campaign in Carleton Place.

Observe the words "reimpose" and "re-establishment" applied by Mr. McCarthy as to Separate Schools, and you will find the meaning in which Mr. McCarthy conceals their existence in Manitoba previous to the Act of 1890.

Can he, subtle of intellect as he is, point to a clause in the constitution which gives power to abolish Separate Schools in any province in which they have been established or to establish them where they did not exist prior to Confederation?

He may reply that as the Province of Manitoba was established since Confederation, the constitutional restriction does not apply to it, and that such authorities have decided against his contention, namely:

1. The Dominion Parliament, in passing the Act constituting the Province, voted for the establishment of Separate Schools therein—the present Premier being one of the dissentients.

2. The Law Lords of the Imperial Privy Council in their final judgment.

3. The Dominion Government, after hearing argument by Mr. McCarthy.

EDITORIAL BRIEVES.

J. Israel Tarte and Mr. James McShane declare that they are honest men. They both have "chambers" in Montreal, the former in the Commercial Hotel, the latter in the Dominion Hotel, which latterly agree with their statements, and Mr. McShane has the additional recommendation of having been disqualified by an election court for electoral corruption.

The Montreal Witness says: "As a matter of fact there were no Protestants in Canada to speak of before 1870. There were only Sir John Macdonald, Sir Mackenzie Bowell, Hon. Isaac Buchanan, John McLean, Mr. Wilfrid Laurier, Mr. Thomas White, Mr. Pateron, Mr. of Inland, Sir Charles Tupper, Mr. John Abbott, Sir Leonard Tilley, Mr. William of Montreal, Mr. Irving of Hamilton, and a few hundred thousand more—none to speak of."

Mr. James McShane said in Jacques Cartier that the appeal made to him by Mr. Laurier should be made to the people (the speaker was the candidate for Montreal Centre, but he had the people with him). In Jacques Cartier, Mr. McShane said: "The people wanted honest men as their representatives, and a leader like Mr. Laurier."

Mr. McShane thus fore-shadows his own defeat.

The failure of Mr. Laurier as a leader is apparent, that the Montreal Witness speaks to Sir Oliver Mowat to enter the Federal field as Liberal leader. Weakness in Mr. Laurier's management and consequent internal dissensions seem to have provoked this proposition.

The Montreal Witness says "Johnny McShane, the candidate in Montreal Centre, does not know the difference between right and wrong, remarks the Mail and Empire. And Mr. Laurier adds, in an election speech: "Give me such men as McShane, and the best can be hoped for." Whereupon Tarte chortled. Well did Mr. Bonagrande know each man when he pictured them as ready, with big bodies, to slip into the soap which they mull at Ottawa.

Warning to Insurers.

When an agent offers you Life Assurance at about

the rates you are paying or would pay in a regular Old Line company, remember he is offering you Assured Assurance, making you liable to pay increased Rates every year, as your

advances, and is deceiving you if he does not tell you so.

Don't Play .. INSURANCE.

With Two Kinds of Fire!

You insure against one kind, don't risk that by another kind—avoid new-fangled insurance schemes. They may be all right, but you don't know it very much. They haven't been tried in the Liverpool, London & Globe Insurance Company; pay a good, honest price for secure insurance. We have that kind and the records prove it.

THE BEST OF ALL IN ALL THINGS AT ALL TIMES.

There are many GOOD life insurance companies, but among them all there must be one BEST. THE BEST IS THE EQUITABLE. If you wish to know why, send for: 1, the report of the Superintendent of Insurance for the State of New York on the examination of The Equitable; 2, for actual results of maturing policies; 3, for statement of death claims paid in 1894. Then you will know the three great reasons of The Equitable's supremacy: 1st, its financial stability; 2nd, its great profits and advantages to living policy-holders; 3rd, the promptness of its payments and liberality of its settlements.

THE MANITOBA SCHOOL QUESTION.

The Montreal Star, a journal which has no party aims to serve, published in its issue of the 23rd inst., an editorial article on the Manitoba school question, which has recently attracted attention in the country. The conclusion at which our contemporary arrives was expressed in those columns on the 4th inst., and we are gratified to have found confirmation of the opinion in so able and influential an organ of public opinion as the Star. Our contemporary's article is long, but we reproduce it herewith, as an important contribution to the literature of the question. The Star says:

No one who properly appreciates the force of religious conviction or the importance of public education, will be little the school problem which confronts the people of Manitoba. Nor will it be surprised to find that the school question is one of the most important in the country. The conclusion at which our contemporary arrives is long, but we reproduce it herewith, as an important contribution to the literature of the question. The Star says:

Should Manitoba refuse to act, the position will be an awkward one—not only for the people of Manitoba, but for the Dominion Government as well. The Dominion Government must then come to the relief of the minority; and the result of federal interference in the provincial educational field, is not likely to be a smooth working of the irregular administrative system of education. It would seem to an outsider that the Manitoba Government cannot be expected to have with more satisfaction to themselves—and with as much justice to the minority as their own Parliament, which must legislate at long range.

More than that, any act passed in Ottawa that would be a step towards the irreparable. Mr. McCarthy stated that he was in the position of a man who was asked to sign a document which would be a step towards the irreparable. Mr. McCarthy stated that he was in the position of a man who was asked to sign a document which would be a step towards the irreparable.

The position is a simple one. The Privy Council decided that the school law was a violation of the Constitution. The Dominion Government acknowledged the decision and accepted the result. It could do no less. The first step was to pass the decision of the decision on the law. The Dominion Government acknowledged the decision and accepted the result. It could do no less. TROUBLED TURKEY.

London, Nov. 24. A grim story, which has been published, reveals the conditions of the country, because of its position in the work of driving pigs for the purpose of the country, because of its position in the work of driving pigs for the purpose of the country.

It can be authoritatively stated that Lord Salisbury's instructions to Sir Philip Currie, the British Ambassador to Turkey, who left London a few days ago on his return to the post of duty, are to refrain from exerting undue pressure on the Sultan for the execution of the reforms in Armenia, and the relating administrative anarchy and to appoint authorities through whom the reforms must be effected.

The latest and best advice received from the Constantinian source is that those received in London that the Turkish revolutionary party is making headway against the Sultan, whose proposed reforms are being resisted by the Sultan, whose proposed reforms are being resisted by the Sultan.

The Daily News in the morning will publish a letter from a Manitoba resident at Kharpot, dated November 3, in which the correspondent describes the whole city of Kharpot as being in a state of anarchy, the result of the recent heavy rain. For more than a week the Kurds have been attacking the villages in the vicinity of Kharpot, three of the Christians were killed in one house and two perished in another. The Christians were killed in one house and two perished in another.

Part, Nov. 24.—French consular reports say that 50,000 Armenians have been massacred in the last few months, but that the number of Turks killed in the same period is not known. The Turkish present condition is bordering upon desecration, the forces of anarchy are steadily increasing. The Turkish present condition is bordering upon desecration, the forces of anarchy are steadily increasing.

The Hainrik, a local newspaper, has been informed by the authorities on account of the refusal of the Sultan to publish an article sent to him by the Turkish Minister, and concerning the intrigues of the Armenians.

A WOMAN'S REPUTATION.

Mr. Justice Hurling the Witnesses Without Cross-Examination—A New Experiment in the Famous Case.

The interest in the Hyams trial flared last week. This week a great deal of interest was shown in the defence. During the evidence for the Crown, Mr. Justice Hurling, in a manner almost unimagined, his speech was given, he handled the witnesses with a grace and ease that was almost unimagined. This manner he followed in the evidence of his experts. They were professional men, and the answers they were dealing with were largely hypothetical. But at last, on the defence, he began to put in the evidence touching the woman's life. He called the witness, a chance came when the witness more resumed his old form. On Saturday he handled several witnesses so severely in cross-examination that they broke up on matters on which he was not to be examined. In his examination, he was in a position to tell, and blundered hopelessly. When he left the witness, he was as limp as a rag. Mr. Justice Hurling, in his examination, was in a position to tell, and blundered hopelessly. When he left the witness, he was as limp as a rag.

THE HYAMS TRIAL
Last Effort for the Prisoners
Made by Mr. Lount.

MR. OSLER BEGINS HIS ADDRESS.

Mr. Lount's Forenoon a Magnificent Speech—Statement of Mr. Johnston—The Fate of the Prisoners Will Be Known on Monday.

Toronto, November 30. Mr. Lount continued his address in the Hyams case yesterday morning. The conference he held to-day was long before his last speech took place. He was seated on the bench, and his last speech was a summary of the case, and a plea for the prisoners.

Mr. Lount said that with the question raised by the Crown that the Hyams case was a link in a chain of circumstances leading up to murder, the fact was that the Hyams case was a link in a chain of circumstances leading up to murder.

HEADING FOR THE DARDANELLES.

Warships hourly expected at the Bosporus—They Are Considered Absolutely Indispensable—The Sultan Loves His Fleet.

London, Nov. 29.—The Vienna correspondent of the Standard says that the Sultan's refusal of the franchise of the Dardanelles is a serious blow to the Turkish government, and that the Sultan is determined to keep the Dardanelles in his own hands.

Constantinople, Nov. 29.—The political situation has again reached a point of crisis, and it is believed that the Sultan is determined to keep the Dardanelles in his own hands.

Hard and Soft Wood, Blocks, Edging, Lumber, Hay and Straw and Feed of all kinds.

There is no use in trying to come patronize old and well-known Downey Co. yard away from STEWART. These old-time patrons of good coal, good weight, courteous service and promptness in delivery. The nearest deliverer for him have been so employed, for the sake of some few dollars, to sell the most inferior quality of coal.
